## INTRODUCTION

This report presents distributions of the population by single years of age and sex for provinces and census metropolitan areas according to the 1966 Census of Canada. Age classifications in the census are based on a definition which specifies completed years of age at last birthday. In the 1966 Census, this refers to a person's age at his last birthday prior to June 1, 1966.

The single years of age data in this report represent the actual tabulated totals of individual ages as reported in the census. Thus, they are subject to a relatively higher degree of error than the previously published census classifications by age groups (see Report 1-10). While some inaccuracies resulting from misstatement of age are inherent in all census statistics on this subject, those occurring from the tendency on the part of some respondents towards overreporting of ages ending in certain digits (e.g., zero and five) are more significant in classifications by single years of age.

Le présent rapport répartit la population des provinces et des zones métropolitaines de recensement par année d'âge et le sexe d'après le recensement du Canada de 1966. Le recensement établit les catégories d'âge en fonction des années révolues d'âge au dernier anniversaire de naissance. Au recensement de 1966, l'âge d'une personne était arrêté au dernier anniversaire de naissance qui précédait le 1er juin 1966.

Les données par année d'âge dans le présent rapport représentent les calculs actuels des âges des personnes tels que rapportés au recensement. Par conséquent, elles sont sujettes à un degré relativement plus élevé d'erreur que le classement de recensement publié précédemment par groupe d'âge (voir rapport 1-10). Tandis que des inexactitudes résultant d'un exposé incorrect de l'âge sont inhérentes à toutes les statistiques du recensement sur ce sujet, celles qui s'ensuivent de la tendance de certaines personnes à rapporter trop fréquemment les âges se terminant par certains chiffres (e.g., zéro et cinq) sont plus significatives dans un classement par année d'âge.
